# About the school

## About Prague Language Institute

Our school is bright, student- oriented and very Insta-friendly space in the historical center of Prague. Our teachers are qualified ESL specialists from the US, the UK, Ireland and Australia. Fully interactive classes and individual approach to each student are the main pillars of our integral teaching method. Our methodology prompts students to use the English language constantly, speaking and writing in English from day one and not only in class.

Before arrival students do placement test and individual interview with our head teacher and upon arrival they are placed in groups according to their levels. Groups are usually 10-15 students. Study materials are developed specifically for our school and are updated every year to cover the most recent topics. Winter school is based on communicative approach, with the use of case studies and audiovisual materials.
